# WEATHER OF CONCERN

## Weather of Concern

### **Northern California**

- Gusty offshore winds and a very dry airmass will continue to elevate fire danger in the hills early today, particularly in the North Bay Mountains and East Bay Hills.
  - Although the Red Flag Warning has expired, it doesn't mean fire weather concerns completely go away.
  - Winds may have dropped below criteria, but Relative Humidity (RH) will remain low this afternoon keeping lingering fire weather concerns.
  - Overnight observations still indicate gusty N to NE winds with a very dry airmass.

## Monday

- Elevated fire weather conditions will continue for areas of Inland and Coastal Regions Monday due to increased north and northeast winds and continued dry humidity conditions.

## Tuesday-Saturday

- Potential continues for periods of elevated fire weather conditions due to off-shore winds across areas of Coastal and Inland regions through next week, peaking Thu-Fri
- Moderate, and possibly strong, Santa Ana Wind event possible in Southern Region Thu-Fri
